## project description:

This project sought approval to use and develop a 400 seat Performing Arts Centre (theatre) at the existing Burrinja site in the Upwey region of the Dandenong Ranges. The project has significant public sector funding and generous local support.

Our role involved the coordination, preparation and presentation of the case for the Shire of Yarra Ranges before the Victorian Civil and Administrative Tribunal.

Expert evidence was called from the fields of Traffic Engineering, Acoustic Engineering, Landscape Architecture as well as the Executive Officer of Burrinja.

The Tribunal supported the project and directed the grant of a Permit generally in accordance with conditions proposed by the venue's operational management plan.
