

# my neighbourhood booroondara

client:

Booroondara Council

project team:

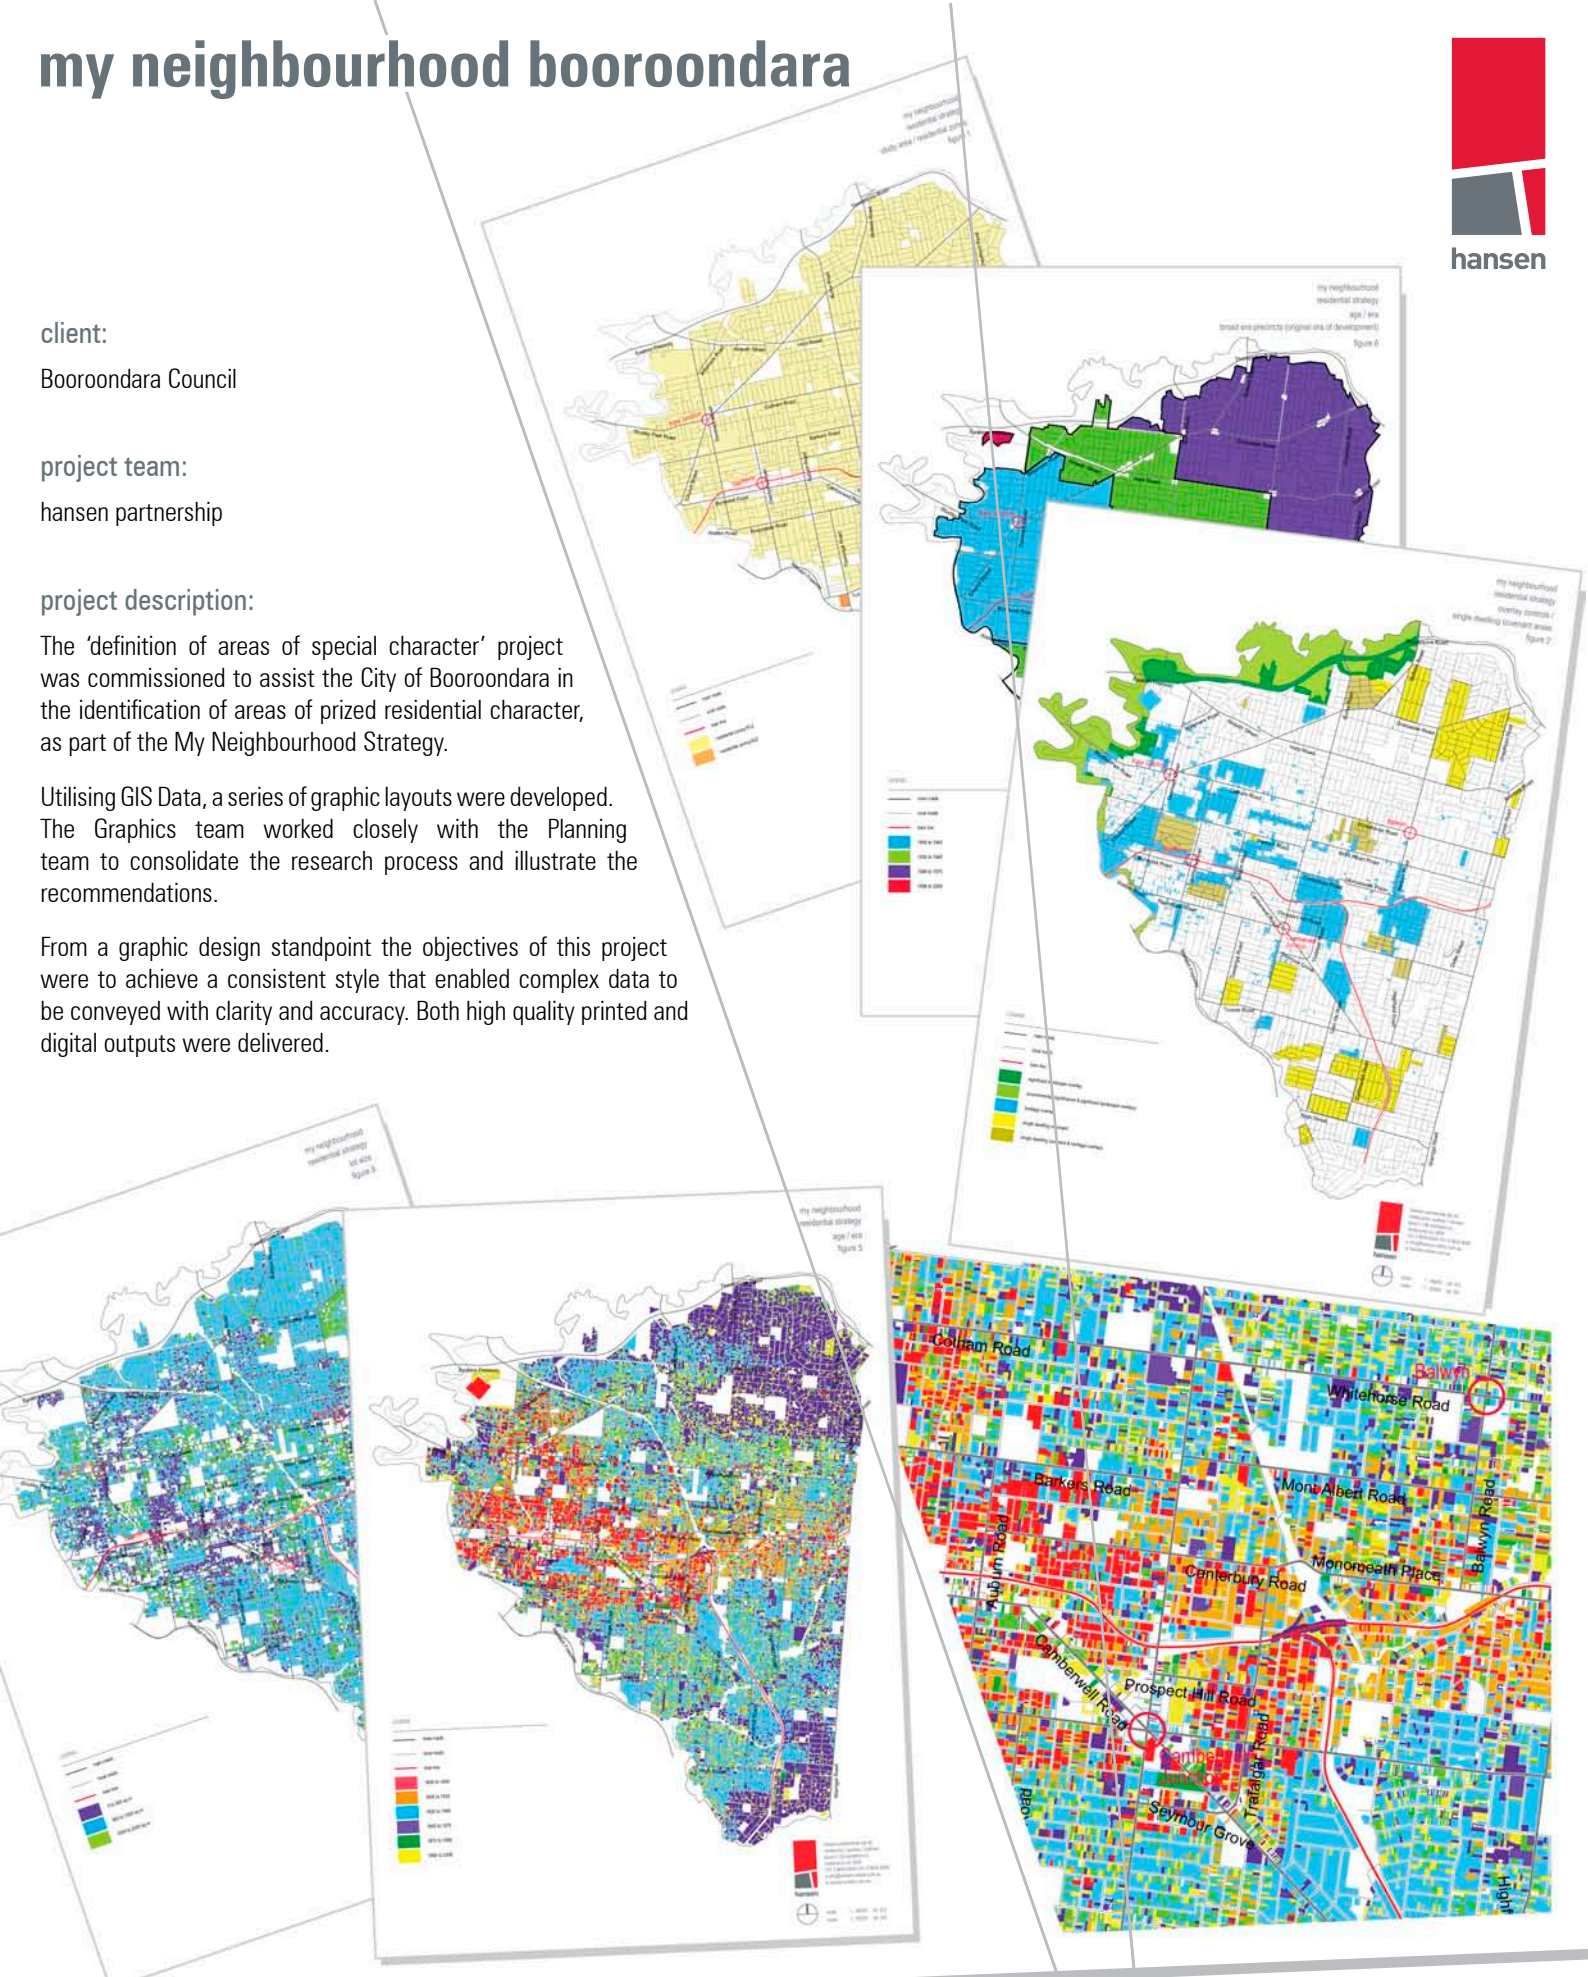

hansen partnership

project description:

The 'definition of areas of special character' project was commissioned to assist the City of Booroondara in the identification of areas of prized residential character, as part of the My Neighbourhood Strategy.

Utilising GIS Data, a series of graphic layouts were developed. The Graphics team worked closely with the Planning team to consolidate the research process and illustrate the recommendations.

From a graphic design standpoint the objectives of this project were to achieve a consistent style that enabled complex data to be conveyed with clarity and accuracy. Both high quality printed and digital outputs were delivered.
